

HAWAIIAN MOON ALOE

Aloe Vera has been used for thousands of years as a safe, natural healer. Science is now proving what naturalists have known throughout time: natural Aloe Vera contains six antiseptic agents that fight infection; three analgesics to reduce pain and at least three anti-inflammatory agents.

THE SECRET TO HEALTHY, RADIANT SKIN

Hawaiian Moon Aloe Vera Skin & Hand Cream is made with 100% organic aloe! Hawaiian Moon Aloe Vera skin & hand cream contains only genuine, 100% organic Barbadosis Miller aloe, the highest grade of Aloe Vera anywhere in the world. All others do not compare.

HAWAIIAN MOON ALOE ABSORBS 7 LAYERS DEEP INTO YOUR SKIN

Hawaiian Moon Aloe is 98.5% natural and safe and your skin will soak it right up! It penetrates the skin 7 layers deep, to the basal cell layer, hydrating and healing all the way up. The pure, organic Aloe Vera in Hawaiian Moon Aloe dilates the capillaries to stimulate & increase circulation (which carries away toxins), which aids in repairing your skin, starting from the cellular level. Few things in the world can penetrate so deep. The result... beautiful, soft, healthy skin.
